*Allowable Subject Matter*

This communication is in response to applicant's amendment which is filed August 27, 2007 in the application of Chandley for a "systems and methods for deterring theft of electronic devices" filed October 1, 2003.

The proposed amendment has been entered and made of record. Claims 1, 10-22, 26, 28, 35 and 37-38 have been amended to more particularly point out and distinctly claim the invention.

Claims 7, 10-21, 26, 34 and 38 have been cancelled. The new set of claims 39-41 have been introduced.

Applicant's amendment with respect to the pending claims 1-6, 8-9, 22-25, 27-33 and 35-41, filed August 27, 2007, places the application in condition for allowance.

Claims 1-6, 8-9, 22-25, 27-33 and 35-41 are allowed as evident by applicant's amendment and arguments.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest receiving by a receiver of the device a disabling signal targeting the device remotely via a network, the disabling signal being transmitted at a rate that decreases corresponding to a duration of time that has expired since the device was reported lost.
